Protecting People in a Changing World of Work

For over 100 years, Prime Products Ltd has been a trusted partner in ensuring worker safety across various challenging environments. Originally rooted in the maritime industry, our legacy of innovation and expertise now extends to a wide range of industries. We are a global leader in providing comprehensive safety solutions, leveraging our extensive experience to meet the evolving needs of the modern workforce.

Trusted Expertise, Unparalleled Safety

Our diverse global clientele is a testament to our ability to deliver customized solutions. We specialize in gas detection technology, offering a comprehensive range of products and services to keep workers safe from invisible threats. Additionally, our high-quality workwear ensures that people stay safe and productive. Over the years, we have expanded our business, opening branches in major ports worldwide, providing exceptional service and support wherever operations take place. Our focus on continuous improvement ensures we stay ahead of the curve, integrating the latest advancements to create a safer future for all industries.

Our Core Values

Safety, reliability and expertise guide everything we do. Our team of highly trained professionals collaborates closely with customers, building strong, lasting relationships to uphold the highest standards of protection and performance.

GAS DETECTION

No matter the circumstances, safety for people and the environment is always a top priority. In situations where combustible and toxic gases may be present, every second counts

GAS DETECTORS

Trust in our expertise and MSA's leading technology to protect against toxic, combustible and asphyxiant gases, maintaining a safe working environment.

- **Accurate and reliable**
- **Compact and handheld**
- **Real-time monitoring**
- **Cutting-edge sensor technology**
- **User friendly**
- **Comprehensive support, training and service**

Preventing occupational hazards in various industries, including:

- **Oil and gas**
- **Maritime**
- **Mining**
- **Construction**
- **Fire rescue operations**

TUBES & PUMPS

Gas Detection with the squeeze of a handle

The pumps are constructed with a shaft-guided compression system for more consistent and replicable flow rates and volumes per stroke than may be available with hand-guided pumps.

Gas detection tubes offer several advantages over alternative detection methods, making them a crucial component of various industrial testing protocols. Our selection includes a wide range of detector tubes, tailored for numerous applications to meet diverse industrial needs.

CALIBRATION GAS CYLINDERS

One Stop Shop for your Gas Requirements

Looking for a simple, fast and cost-effective solution for your vessel's gas calibration needs? Look no further than our comprehensive gas supply. We offer a wide range of calibration gas cylinders, calibration adapters, fixed flow and demand flow regulators and other essential peripheral equipment, all in one convenient location.

Features

- Large shelf stock
- Free transportation in the following ports:
**Piraeus - Singapore - Fujairah
Rotterdam - Houston**
- **Need to transport calibration gases elsewhere? No worries!** We can arrange deliveries wherever they accept such shipments

FIXED GAS DETECTION SYSTEMS

Continuous Area and Personnel Protection

Features

- A True Universal Transmitter, compatible with various control panels
- Industry standard 4-20 mA analog output with digital communication on MODBUS over RS 485
- Pre-Calibrated Smart Sensor capable of swapping between any sensor technology
- Non-Intrusive calibration with magnetic wand
- 3 Configurable on-board potential free relay contact
- Temperature Class T4: -20° to +85° Celsius
- Bright OLED display

- Chemical
- Pharmaceutical
- Marine
- Fertilizer
- Iron and Steel

EN certifications: ATEX, IECEx, MED and SIL2

Prime 247 is a smart, reliable
and complete gas detection solution
for the maritime industry

BENEFITS

- ✓ No hidden costs / pay a predetermined annual fee
- ✓ One-stop-shop
- ✓ Operational & reliable instruments at all times

SUPPORT IN MAJOR PORTS WORLDWIDE

- ⊗ PIRAEUS
- ⊗ SINGAPORE
- ⊗ FUJAIRAH
- ⊗ ROTTERDAM
- ⊗ HOUSTON

The leading supplier of
Portable Gas Detectors
in the maritime industry

More than
2.500
enrolled ships

More than
10.000
operational instruments

Technical Support

Direct communication-immediate assistance!

Calibration & Maintenance

- Experienced technicians located in major ports worldwide
- Calibration and Maintenance of : Gas Detectors, UTI Meters, Pressure & Temperature Calibrators, Pressure Gauges, Hand Pumps, Alcohol Meter Devices
- Calibration on board the vessel is possible

Sensors' Warranty & Replacement

MSA Gas Detectors' sensors come with a warranty for safer and longer use

Remote Certification

MSA Link Software allows for remote gas detector certification, eliminating costly and time-consuming calibration tasks while optimizing efficiency

Exchange Service for Malfunctioning Instruments

- Exchange of malfunctioning instrument(s) to newly calibrated & fully operational one(s), is possible
- No fees are charged at Prime Products service stations

Online Control Center

Real-time overview of ship's inventory

Equipment Supply

- MSA gas detectors
- Calibration gas cylinders
- Calibration adapters
- Detector Tubes

Instruments' Monitoring

- Specially designed monitoring system
- Timely and accurate data entry
- Fully updated at all times
- On time notifications for all equipment needs
- For Gas Detectors, Pressure & Temperature Calibrators, UTI

Training - Seminars

- Individual or group training courses, free of charge
- Seminars on safety equipment use, held periodically in our head offices in Piraeus

LIFE LINE SYSTEMS

Ensuring Ultimate Fall Safety

Lifeline Systems are engineered to provide unparalleled fall protection in the most hazardous work conditions. Designed for versatility and adaptability, our systems can be implemented horizontally or vertically and are available in both temporary or permanent installations. Whether you need a rigid or flexible solution, our range includes posts, anchors and tailor-made options to meet the specific needs of your project.

Key Features

- **Versatility**
Suitable for various applications, environments and requirements
- **High Adaptability**
Easily adjustable to fit different slopes and workspaces
- **User-Friendly**
Simple installation and usage for all team members
- **Optimum Safety**
Designed to offer maximum protection on all types of slopes
- **Superior Design**
Combining aesthetic appeal with functional safety with Lifeline Systems, you can ensure that your team is equipped with the highest level of fall protection, keeping them safe and secure, no matter the complexity of the job

Disposable Equipment

Lightweight, protective clothing for hygiene and safety in various work environments, designed for single use

Food Industry

Essential, hygienic tools and protective gear tailored for safe and efficient food processing and service

Cryogenic

Designed to safeguard users handling cryogenic liquids in medical, industrial and scientific applications, offering insulation against extreme cold temperatures

HI - VIS

Brighten up safety with hi-vis gear, designed to keep workers seen and safe in any light, reducing risks and shining in safety standards

Cold Protection

Warmth and safety in freezing temperatures, providing essential comfort for working in cold environments

Water Blasting and Cutting

Crafted for safety and comfort during high-pressure work, ensuring ease of movement and peace of mind for operators

Heat & Flame Resistant

Safety and comfort in high temperatures

Dielectric Protection

Ensures safety in electrical environments, shielding against electric shocks and hazards

Welding Equipment

The essential tools for precise and efficient metal joining

Chemical Protection

Safeguarding against hazardous chemical substances

*Where cell phones fall short, digital
radios keep you going*

MOTOTRBO™ R2

MOTOTRBO™ R7

MOTOTRBO™ DP4401 EX

LICENSED TWO-WAY RADIOS

Unleash Powerful Communication

- **Crystal-Clear Calls, Every Time**

Engineered for superior audio in demanding environments, these radios ensure your message is received loud & clear

- **Unparalleled Security and Range**

Licensed frequency use provides enhanced privacy, extended range and reliable communication for your critical operations

- **Built to Endure, Designed to Impress**

Rugged construction and advanced features guarantee dependable performance, shift after shift

- **Tailored for Your Team**

With customizable options, you can configure these radios to perfectly match your workflow and needs

UNLICENSED TWO-WAY RADIO

Crystal-Clear Communication, Made Simple

- **Talk freely, work efficiently**

No license required, these radios let your team stay connected instantly with a simple push-to-talk button

- **Hear every word, every time**

Enjoy crisp, clear audio for reliable communication, whether you're on a noisy shop floor or coordinating at a large event

- **Built to last, built for you**

Compact and rugged, these radios can handle tough environments, keeping your team connected all shift long

- **Long-lasting power**

Stay focused on the task at hand with extended battery life that lets you communicate throughout the day

WAVE PTX

Take Push-To-Talk further

Bridges devices across networks/Instant multimedia communication.

Turn your smartphone into a multi-channel communication device with the wave ptx mobile app.

- Predictable costs / subscription fee
- Broadband PTT service
- Wave ptx app
- Group & private calls
- Voice & text messaging
- Video, photo & file sharing

Uses

- Maritime Industry
- Oil and Gas
- Hospitality

ATEX MOBILE PHONES

Stay Connected, Stay Safe: i-SAFE ATEX - Certified Mobile Phones

- **Safe Communication**

For Hazardous Environments

i-SAFE's ATEX-certified mobile phones are built to withstand even the toughest conditions. With explosion-proof features and rugged durability, they ensure reliable connectivity in places where sparks could ignite disaster, like oil rigs, gas refineries and mines

- **Keep Your Team Connected**

Crystal-clear calling and long-lasting battery life keep your crew in touch, allowing for efficient coordination and increased safety in high-risk zones

emergency response on land or water*

DEFIBRILLATORS

Be a Hero with RESCUE SAM **Your Easy-to-Use AED Simple steps,** **lifesaving results**

RESCUE SAM is a semi-automatic AED designed to guide you through cardiac arrest emergencies with clear voice prompts and visual indicators.

- **Compact and powerful**
Lightweight and portable, RESCUE SAM can be easily deployed in various settings
- **Designed for everyone**
No prior medical training is needed. RESCUE SAM's user-friendly interface empowers anyone to become a lifesaver

- **Be prepared to act**
Having a RESCUE SAM readily available increases the chances of survival for someone in cardiac arrest
- **Invest in peace of mind**
RESCUE SAM creates a heart-safe zone, offering a layer of security for your community

ALCOHOL & DRUG DETECTORS

Confidence in the palm of your hand

- **Quick checks for clear results**

These portable Alcohol & Drug Detectors offer a reliable way to detect the presence of alcohol or drugs, promoting safety and responsibility in various situations

- **Know in seconds**

Advanced detection technology delivers immediate and accurate readings, allowing for informed decisions

- **Simple to use**

User-friendly design ensures anyone can understand clear, straightforward results

- **Multiple applications**

Ideal for personal use, workplaces or law enforcement, they help maintain safety across different environments

SURVIVOR LOCATION LIGHTS

Be Seen, Be Rescued Don't be left in the dark during an emergency at sea. Daniamant Survivor Location Lights offer a complete range of high-intensity, compact and durable illumination for life jackets, lifebuoys, life rafts and lifeboats.

- **Compact and durable**
Built to withstand harsh conditions
- **Waterproof construction**
Performs flawlessly in any weather
- **Long-lasting LED bulb**
Reliable light source for extended periods
- **Simple activation**
Easy to use in critical moments
- **Steady, bright signal**
Alerts rescuers quickly and effectively
- **Increase your chances of survival and rescue**
Daniamant Survivor Location Lights provide essential peace of mind, ensuring you're seen when it matters most

W4

L161

STRETCHERS & CRADLES

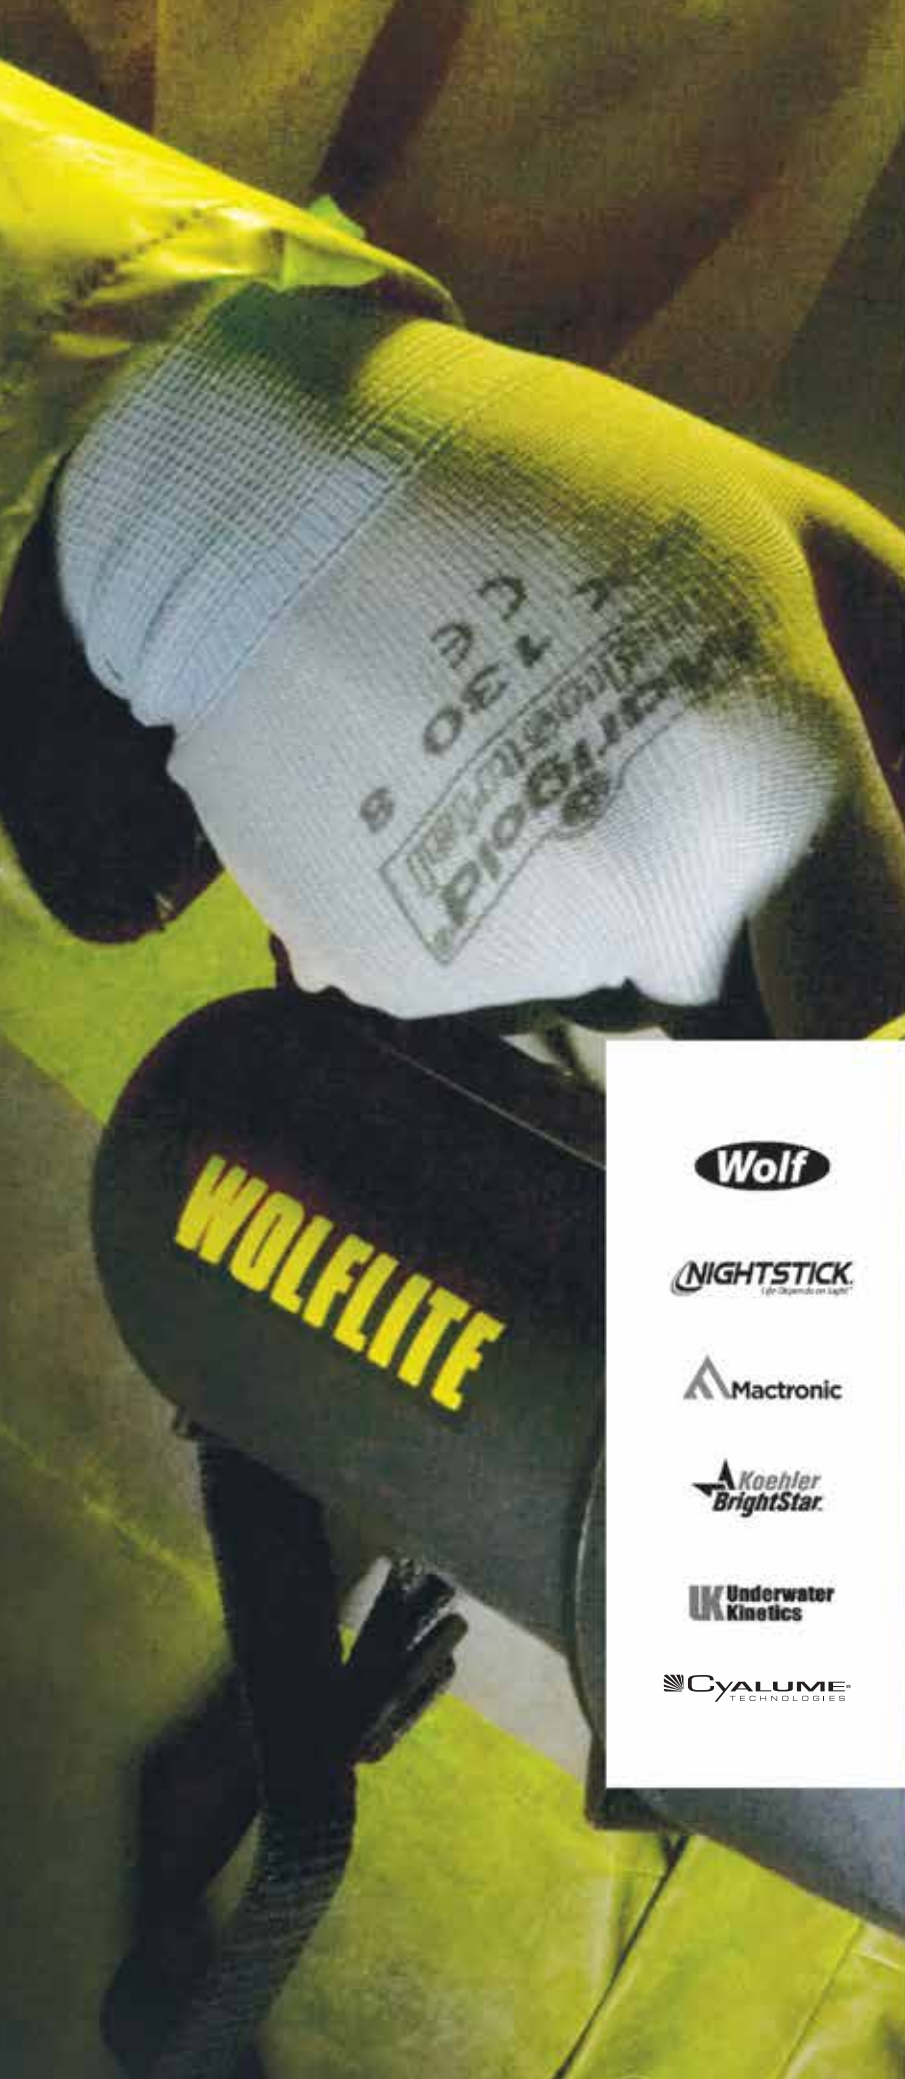

Designed for safe and efficient casualty recovery, ideal for maritime environments

Stretchers

- Lightweight construction for easy transport and maneuverability
- Rigid support for spinal stabilization
- Adjustable designs for various patient needs

Cradles

- Compact and portable for easy storage
- Multi-functional, serving as a stretcher, boarding ladder and scramble net
- Approved for use by maritime regulatory bodies

LIGHTING SOLUTIONS

Safety lighting for working in hazardous environments

HEADLAMPS

Hands-Free Illumination (Highlight the hands-free aspect)

- Light up your path and keep your hands free for tasks with our comfortable, lightweight headlamps
- Powerful LEDs with adjustable settings for both broad beams and close-up work
- Durable and weather-resistant for any adventure
- Designed for use in ATEX environments to ensure compliance with the safety standards for potentially explosive atmospheres

HANDLAMPS

Reliable Light in Your Hand

- **Focus on Portability**
Compact and powerful handlamps offer bright, adjustable illumination for any situation. Designed for convenience, these handlamps provide reliable light exactly where you need it
- **Built for Comfort and Durability**
Lightweight and built to last, they fit comfortably in your hand, making them easy to carry and maneuver. The rugged construction ensures they can withstand everyday wear and tear, as well as unexpected drops or bumps
- **Extended Battery Life**
Long-lasting battery life keeps you illuminated for extended periods, reducing the need for frequent recharges or battery replacements

AIRLAMPS

Illuminate Large Areas (Emphasize the coverage area)

- Bright, even light from above - Air Lamps are perfect for outdoor gatherings, emergencies or workplaces
- Suspend them easily for hands-free illumination over a wide area
- Portable and weather-resistant for versatile use
- Long-lasting battery ensures extended light without needing an outlet
- Designed for use in ATEX environments

TORCHES

Powerful Beams for Any Situation (Focus on power and control)

- Our high-performance torches provide intense, adjustable beams to conquer darkness
- Rugged design handles tough conditions, making them ideal for outdoor adventures or emergencies
- Rechargeable batteries offer long-lasting power
- Ergonomic design and adjustable settings for comfort and control
- ATEX Certified

LIGHTSTICKS

Light Up Your World, Anytime, Anywhere

- **Instant illumination, endless uses**
Lightsticks offer a convenient and reliable light source, perfect for any situation
- **Just snap & shake**
Activate them instantly for emergencies, camping, concerts or fun
- **Safe & dependable**
Non-toxic design makes them safe for all ages and environments

- **Built to last**
Waterproof, weatherproof and long-lasting, they keep you illuminated for hours
- **Compact & versatile**
Easy to pack and carry, ideal for emergency kits, adventures or creating ambiance
- **Light up your path, signal for help or add a festive touch**
Lightsticks are the multi-purpose tool you need

UTI (ULLAGE TEMPERATURE INTERFACE)

Advanced Tank Monitoring

SHT2002 is a gas-tight portable gauging system designed to measure ullage, oil/water interface level and temperature in single operation. It is used for tank level measurement on marine vessel.

Features

- Fully adjustable
- Can replace all market models (MMC, Hermetic, Tank Tech)
- Auto calibrated
- Plug and play spare parts
- Full technical support for service, exchange and remote troubleshooting
- Certificates provided
- Great accuracy and durability
- User friendly
- Tape cleaning function and tube protection
- Closed system (gas-tight)
- Modular design and low maintenance cost
- Designed for hydrocarbons and corrosive liquids application (oil/chemical tankers)

FLAME, SMOKE & HEAT DETECTOR TESTERS

Safeguard Your Space

- **Be prepared, every time**
Ensure your fire alarms are operational with our flame, smoke & heat detector testers
- **Simple & Reliable**
User-friendly design allows for easy testing without specialized knowledge
- **Comprehensive Checks**
Tests all detector types (flame, smoke, heat) for complete fire safety assurance
- **Fast & Portable**
Compact and quick to use, these testers are ideal for regular maintenance
- **Compliant & Approved**
Our testers meet safety standards and are endorsed by manufacturers, ensuring reliable performance

ENGINE INDICATORS

Electronic Pressure Indicator EPM-XP

IMES electronic pressure indicators are designed as compact and lightweight handheld devices for diesel and gas engines. They are easy to use and convince with their accuracy and their sophisticated analyzing software.

The battery powered, hand-held Electronic Indicator EPM-XP is designed for periodic monitoring of cylinder pressures on large diesel, gas and dual-fuel engines. It provides important measurement data for engine diagnostics and condition monitoring directly at the point of use. The acquired data can then be downloaded to a computer where the IMES visualization and evaluation software is used to calculate IMEP and IPOWER including p/v diagrams.

EPM-XP gives immediate read-outs for peak pressure (Pmax) and (Pcomp) from a number of pressure cycles per cylinder.

- Advanced algorithm for TDC correction
- Trending function
- P/alpha diagram incl. Pcomp calculation
- Pmax and Pcomp balancing diagram
- Battery capacity for more than 20 hours
- One visualisation software for all device types
- Excellent price-performance ratio
- High accuracy
- Excellent price performance ratio
- Calc. of spec, F.O, consumption (g/Kwh)

-Optional- Firmware upgrade to EPM-XP Plus for I-power, IMEP calculation and trending function

Application

- 2 stroke engines / 40- 950 RPM
- 4 stroke engines / 200- 1800 RPM
